Farmers Used Telephone Poles for Fuel

and Fences. Coopenstown, N. Y., April 10.—A score of farmers in the Schenevus Valley, near here, are in trouble because they appropriated telephone poles for fence posts and firewood. Recently the Central New York Telephone Company took down its line through that section. When the workmen went over the route for the poles they discovered that many were masing. The wire, too, had been appropriated to build fences. The matter will be settled in court.

3 KILLED IN ENGINE WRECK. Jumped the Track and Plunged Fifteen

Feet Inte a Swamp.

ELIEABETH, N. J., April 10.—A drill engine of the Central Railroad of New Jersey left the rails on the Broadway division in this city at 6 15 o'clock this morning and tumbled down an embankment fifteen feet to a swamp. Three men were in the cab, two of whom, the engineer and a brakeman, were killed instantly The fireman was so badly scalded that he died three hours later in the Alexian Hospital.

The men were Arthur M. Bogert, engineer, of 26 Whiting street, Jersey City, Charles Brooks, fireman, of Newark, and Theodore Leiss, brakeman, of Elizabeth.

The accident is attributed to spreading of the rails, owing to the loosening of the roadbed by the recent heavy rains. The Broadway line is a single track, built on a narrow embankment. The railroad officials deny that the wreck was caused by the rails apreading.

The engineer and brakeman were in the swamp under the engine for three hours before their bodies were taken out. Feet Into a Swamp.
